TUXIS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2006
(Unaudited)

1. ORGANIZATION AND FORMATION OF THE COMPANY

Tuxis Corporation (“Tuxis” or the “Company”) is a real estate development and services company that acquires and manages properties primarily in Dutchess County, New York through its wholly owned subsidiaries.

Tuxis was incorporated under the laws of the State of Maryland on December 8, 1983 and commenced operations on March 7, 1984 as Bull & Bear Tax-Free Income Fund, a diversified series of shares of Bull & Bear Municipal Securities, Inc., an open-end management investment company registered under the Investment Company Act of 1940 (the “1940 Act”). On November 8, 1996, upon stockholder approval, Tuxis registered under the 1940 Act as a closed-end investment company as Bull & Bear Municipal Income Fund, Inc. by filing Forms N-8A and N-2. In 1998, stockholders approved proposals to change the Company’s investment objective and certain investment policies, to change the Company’s name to Tuxis Corporation, and to change the classification of Tuxis from a diversified investment company to a non-diversified investment company.

In October 2001, the Company’s stockholders approved proposals to change the nature of the Company’s business so as to cease to be an investment company and to amend the Company’s fundamental investment policies regarding concentration and investing directly in real estate. Subsequently, the Company’s management ceased all activities relating to investment securities and established operations in the real estate business.

On October 5, 2005, the SEC issued an order declaring that the Company had ceased to be an investment company effective immediately. As a result, we are currently a publicly held company subject to the reporting and other requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and are no longer subject to regulation under the 1940 Act. The Company’s shares are currently listed on the American Stock Exchange.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries:

Tuxis Real Estate I LLC (“TRE I”)
Tuxis Real Estate II LLC (“TRE2”)
Tuxis Real Estate Brokerage LLC (“TREB”)
Tuxis Operations LLC (“TOP”)
Winmark Properties I LLC (“Winmark I”)

All significant intercompany accounts and transactions have been eliminated in consolidation.

Management’s Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the

reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are primarily used in the determination of long-lived asset impairment and expense allocations. Actual results may differ from those estimates.

Investment in Real Estate and Commercial Leasing Assets

Real estate held for use is stated at the lower of cost or fair value less costs to sell, and includes acreage, development, construction and carrying costs, and other related costs through the development stage. Commercial leasing assets, which are held for use, are stated at cost. Capitalized costs are assigned to individual components of a project, as practicable, whereas interest and other common costs, if any, are allocated based on the relative fair value of individual land parcels. Certain carrying costs are capitalized on properties currently under active development.

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," when events or circumstances indicate that an asset's carrying amount may not be recoverable, an impairment test is performed. Events or circumstances that the Company considers indicators of impairment include significant decreases in market values, adverse changes in regulatory requirements (including environmental laws), and current period or projected operating cash flow losses from rental properties. Impairment tests for properties to be held and used, including rental properties, involve the use of estimated future net undiscounted cash flows expected to be generated from the use of the property and its eventual disposition. If projected undiscounted cash flow from properties to be held and used is less than the related carrying amount, then a reduction of the carrying amount of the long-lived asset to fair value is required. Measurement of the impairment loss is based on the fair value of the asset. Generally, the Company determines fair value using valuation techniques such as discounted expected future cash flows. Impairment tests for properties held for sale, including undeveloped and developed properties, involve management estimates of fair value based on estimated market values for similar properties in similar locations and management estimates of costs to sell. If estimated fair value less costs to sell is less than the related carrying amount, then a reduction of the long-lived asset to fair value less costs to sell is required. No impairment losses are reflected in the accompanying consolidated statement of income.

Cash and Cash Equivalents

Investments in money market funds and short-term investments and other marketable securities maturing in 90 days or less are considered to be cash equivalents. At March 31, 2006, the Company held approximately \$5,000,000 in a money market fund.

Revenue Recognition

Rental income is derived from an operating lease and is recognized on the straight-line method of accounting under which rental income based on the contractual rent increases or rebates is recognized evenly over the lease term. The difference between recognized rental income and rental cash receipts is recorded as deferred rent receivable on the consolidated balance sheet. The lease agreement provides for an annual increase in rent based on a published statistical index. This additional rent is recognized on an accrual basis.

Properties and equipment

Properties and equipment are stated at cost. Acquisitions and additions are capitalized while routine maintenance and repairs, which do not improve the asset or extend its life, are charged to expense when incurred. Depreciation is being provided by the straight-line method over the estimated useful

lives of the respective assets as follows: 40 years for buildings acquired; lesser of the life 5 years or the lease term for tenant improvements and furniture, fixtures, and equipment.

Income Taxes

The Company and its subsidiaries file consolidated income tax returns. The Company's method of accounting for income taxes conforms to the Financial Accounting Standards Board ("FASB")'s Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." This method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting basis and tax basis of assets and liabilities. The Company records a valuation allowance to reduce the deferred tax asset to an amount that is more likely than not to be realized.

Reporting Segment

The Company's primary business is the ownership, development, and management of real estate with a geographic concentration in Dutchess County, New York. Accordingly, the Company has concluded it currently has a single reportable segment for Statement of Financial Accounting Standards No. 131, "Disclosure about Segments of an Enterprise and Related Information" purposes.

Earnings Per Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of common and common equivalent shares outstanding during the period. At March 31, 2006, there was no variance between the basic and diluted loss per share due to there being no potentially dilutive common shares outstanding. The following table sets forth the computation of basic and diluted earnings per share for the three months ended March 31, 2006 and 2005:

	Three Months Ended	
	March 31,	
	2006	2005
	<u> </u>	<u> </u>
Net loss	\$ (180,896)	\$ (128,395)
Basic and diluted weighted-average common shares outstanding	<u>983,776</u>	<u>983,776</u>
Basic and diluted net loss per share of common stock		
Net loss	\$ (0.18)	\$ (0.13)

3. CHANGE IN ACCOUNTING PRINCIPLE

Prior to October 5, 2005, the Company operated under the 1940 Act as a non-diversified closed-end management investment company. As such the Company recorded its net assets at fair value (market value). The SEC approved the application for de-registration of the Company as a registered investment company on October 5, 2005. Therefore, the quarter ended December 31, 2005, reflected the non-recurring charge relating to the change in accounting method for the cumulative effect of recording investments in its wholly owned subsidiaries at fair value to consolidating such subsidiaries.

4. PROPERTY ACQUISITION

On March 10, 2005, the Company acquired through its wholly owned subsidiary Winmark I, a 215 acre parcel of undeveloped land located in Clinton Corners and Millbrook, New York for an aggregate price \$1,951,700 in cash. The purchase price was allocated to long-lived assets.

5. PROPERTIES AND EQUIPMENT

At March 31, 2006, properties and equipment consisted of:

Property held for use - under development	
Land and land improvements	\$ 2,040,803
Building and building improvements	1,103,375
	<hr/>
	3,144,178
	<hr/>
Property held for use - under lease	
Land	80,000
Building and building improvements	174,795
Equipment and fixtures	116,862
	<hr/>
	371,657
Less accumulated depreciation	34,347
	<hr/>
	337,310
	<hr/>
	\$ 3,481,488
	<hr/> <hr/>

At March 31, 2006, our principal real estate holdings are currently in the Millbrook and Clinton Corners areas of northern Dutchess County, New York. Our most significant holdings are the 215.42 acre parcel of undeveloped land located in the Towns of Washington (Millbrook) and Clinton (Clinton Corners) and the 18,598 square foot commercial property in Mabbettsville, New York now known as "Millbrook Commons" (formerly known as "Washington Lanes"). We also own an adjacent 1,006 square foot commercial property known as the Mabbettsville Dairy Cream.

6. FUTURE MINIMUM RENTS

The Company, through its subsidiary TRE2, executed a five year operating lease for its 1,006 square foot commercial property commencing on April 1, 2005. The lease terms provide for a non-cash rebate of \$9,000 during the first year of the lease. The lease payments are subject to an annual adjustment compounded annually based on the cost-of-living adjustment as determined by the U.S. Department of Labor, Bureau of Statistics, Consumer Price Index, or if no longer calculated, similar adjustment. A third party has guaranteed the lease payments for the first two years of the lease of approximately \$81,000.

The excess of contractual rental income over rental income recognized on a straight-line basis of \$9,000 is being amortized over the term of the lease.

Future minimum rentals under the non-cancellable operating lease are as follows:

<u>Year</u>	<u>Minimum Rent</u>
2006	\$ 45,000
2007	45,000
2008	45,000
2009	45,000
2010	11,250
Total	<u>\$ 191,250</u>

7. INCOME TAXES

The income tax provision is comprised of the following:

	<u>2005</u>
Current provision:	
Federal	\$ -
State and local	10,536
Total current provision	<u>10,536</u>
Deferred provision	<u>-</u>
Total provision for income taxes	<u>\$ 10,536</u>

As of March 31, 2006, deferred taxes were comprised of the following:

Deferred tax assets:	
Net operating loss carryforward	\$ 641,092 ¹
Net capital loss carryforward	<u>15,100 ¹</u>
Total deferred tax assets	656,192
Valuation allowance	<u>(656,192)</u>
Deferred tax assets after the valuation allowance	<u>\$ -</u>

¹ Represents the effect of the current year operating loss and the recognition of the operating and capital loss carryforwards related to the Company when it operated as a regulated investment company.

As of December 31, 2005, the net operating loss carryforwards of \$1,374,689 expires as follows: \$38,741 in 2022, \$332,365 in 2023, \$442,592 in 2024, and \$560,991 in 2025. The capital loss carryforward of \$36,742 expires in 2008.

At March 31, 2006, the difference between the effective provision (benefit) for income taxes and the amount computed using the U.S. federal income tax rate is as follows:

	2005
Statutory U.S. federal rate	(34.0) %
State income taxes, net of federal benefit	4.1
Valuation allowance for deferred tax assets	36.1
Effective tax rate	<u>6.2 %</u>

8. DEFINED CONTRIBUTION PLAN

In 2006, the Company began participating in a 401(k) retirement plan for substantially all of its qualified employees. The plan is sponsored by an affiliate of the Company, Winmill & Co. Incorporated. Contributions to this plan are based upon a percentage of salaries of eligible employees and are accrued and funded on a current basis. Total plan expense for the three months ended March 31, 2006 was \$14,220. The Company did not participate in the 401(k) plan for the three months ended March 31, 2005.

9. RELATED PARTIES

Certain officers of the Company also serve as officers and/or directors of Winmill & Co. Incorporated (“Winco”), Bexil Corporation (“Bexil”), and their affiliates (collectively with Tuxis, the “Affiliates”). At March 31, 2006, Winco’s wholly owned subsidiary, Investor Service Center, Inc., owned 234,666 shares of the Company and 222,644 shares of Bexil, or 23% and 25%, respectively, of the outstanding common stock. Winco’s wholly owned subsidiary, Midas Management Corporation (“MMC”), acts as “master” payer of compensation and benefits of Affiliate employees. At March 31, 2006, the Company had a payable to MMC for compensation and benefit expenses of \$139,997.

Rent expense of jointly used office space and overhead expense for various jointly used administrative and support functions incurred by Winco are allocated to the Company and the Affiliates. At March 31, 2006, the Company had a payable to Winco related to these costs of \$28,761. The Company incurred allocated rent and overhead costs of \$21,000 and \$10,500 for the three months ended March 31, 2006 and 2005, respectively.

In 2005 MMC, performed certain accounting services for the Company. The Company incurred accounting services costs performed by MMC of \$0 and \$4,998 for the three months ended March 31, 2006 and 2005, respectively.

10. COMMITMENTS AND CONTINGENCIES

At March 31, 2006, there were no contingent obligations or events occurring that could reasonably be expected to have a material adverse impact on the Company’s financial statements.

11. STOCKHOLDER RIGHTS PLAN

In October 2005, the Board of Directors adopted a stockholder rights plan. To implement the rights plan, the Board of Directors declared a dividend distribution of one right for each outstanding share of

Tuxis common stock, par value \$.01 per share, to holders of record of the shares of common stock at the close of business on November 3, 2005. Each right entitles the registered holder to purchase from Tuxis one one-thousandth of a share of preferred stock, par value \$.01 per share. The rights were distributed as a non-taxable dividend and will expire on November 3, 2015. The rights are evidenced by the underlying Tuxis common stock, and no separate preferred stock purchase rights certificates were distributed. The rights to acquire preferred stock will become exercisable only if a person or group acquires or commences a tender offer for 25% or more of Tuxis' common stock. If a person or group acquires or commences a tender offer for 25% or more of Tuxis' common stock, each holder of a right, except the acquirer, will be entitled, subject to Tuxis' right to redeem or exchange the right, to exercise, at an exercise price of \$40.50, the right for one one-thousandth of a share of Tuxis' newly-created Series A Participating Preferred Stock, or the number of shares of Tuxis common stock equal to the holder's number of rights multiplied by the exercise price and divided by 50% of the market price of Tuxis' common stock on the date of the occurrence of such an event. Tuxis' Board of Directors may terminate the rights plan at any time or redeem the rights, for \$0.01 per right, at any time before a person acquires 25% or more of Tuxis' common stock.

On October 24, 2005, the Board of Directors authorized the reclassification of 100,000 unissued shares of common stock of the Company (from among 1,000,000,000 shares of common stock, \$0.01 par value, of the Company which are authorized) into 100,000 shares of Series A Participating Preferred Stock, par value \$0.01 per share, of the Company.

12. BUSINESS RISK AND UNCERTAINTIES

The Company is vulnerable to concentration risks because our current real estate activities are in one market: Dutchess County, New York. Our properties are located in northern Dutchess County, New York. The geographic concentration and limited number of projects expose our operations to local economic downturns and adverse project-specific risks. Our properties can be significantly affected thereby also affecting our financial condition and results of operations.

The TRE2 property is leased to a single tenant and accounted for all of the rental income for the three months ended March 31, 2006. A default by this tenant would impact the results of the consolidated total. Future minimum rents from this tenant are \$191,250.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Information

Information or statements provided by or on behalf of the Company from time to time, including those within this Quarterly Report on Form 10-QSB, may contain certain “forward-looking information”, including information relating to anticipated growth in revenues or earnings per share, anticipated changes in the amount and composition of assets under management, anticipated expense levels, and expectations regarding financial market conditions. The Company cautions readers that any forward-looking information provided by or on behalf of the Company is not a guarantee of future performance and that actual results may differ materially from those in forward-looking information as a result of various factors, including, but not limited to, those discussed below. Further, such forward-looking statements speak only as of the date on which such statements are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

Certain written and oral statements made or incorporated by reference from time to time by the Company in this report, other reports, filings with the SEC, press releases, conferences, or otherwise, contain “forward looking information” and are “forward looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements. Forward-looking statements may be identified, without limitation, by the use of such words as “anticipates”, “estimates”, “expects”, “intends”, “plans”, “predicts”, “projects”, “believes”, or words or phrases of similar meaning. Forward-looking statements include risks and uncertainties, which could cause actual results or outcomes to differ materially from those expressed in the forward-looking statements. In addition to other factors and matters discussed elsewhere herein, some of the important facts that could cause actual results to differ materially from those discussed in the forward-looking statements include those set forth in the section below entitled “Risk Factors.” The listing of risks described in the section below entitled “Risk Factors” is not exhaustive.

Other sections of this report may include reference to the additional factors, which could adversely impact the Company's business and financial performance. Moreover, the Company operates in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors, nor can it assess the impact of known risk factors on the Company business or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in any forward-looking statement. The Company undertakes no obligation to revise or publicly release the results of any revisions to forward-looking statements or to identify any new risk factors, which may arise. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual future results.

Investors should also be aware that while the Company does, from time to time, communicate with securities analysts, it is against the Company's policy to disclose to them any material, non-public information. Accordingly, investors should not assume that the Company agrees with any statement or report issued by any analyst irrespective of the content of the statement or report. Furthermore, the Company has a policy against issuing or confirming financial forecasts or projections issued by others. Thus, to the extent that the reports issued by securities analysts contain any projections, forecasts, or opinions, such reports are not the responsibility of the Company.

Overview

Tuxis Corporation, a Maryland corporation (“Tuxis” or the “Company”), is a holding company operating in the real estate business and related services through multiple subsidiaries. The Company and its subsidiaries have 10 employees, one of whom is full time.

The Company’s multiple subsidiaries correspond to each line of its real estate business: ownership; management and operations; and sales and leasing. Accordingly, the businesses of Tuxis Real Estate I LLC (“TRE I”), Tuxis Real Estate II LLC (“TRE2”), and Winmark Properties I LLC (“Winmark I”) consist of holding title to real estate. Tuxis Operations LLC (“TOP”) operates and manages the properties owned by TRE I, TRE2, and Winmark I. Tuxis Real Estate Brokerage LLC (“TREB”) acts as broker in the purchase, sale and lease of real estate.

Tuxis was incorporated under the laws of the State of Maryland on December 8, 1983 and commenced operations on March 7, 1984 as Bull & Bear Tax-Free Income Fund, a diversified series of shares of Bull & Bear Municipal Securities, Inc., an open-end management investment company registered under the Investment Company Act of 1940 (the “1940 Act”). On November 8, 1996, upon stockholder approval, Tuxis registered under the 1940 Act as a closed-end investment company as Bull & Bear Municipal Income Fund, Inc. by filing Forms N-8A and N-2. In 1998, stockholders approved proposals to change the Company’s investment objective and certain investment policies, to change the Company’s name to Tuxis Corporation, and to change the classification of Tuxis from a diversified investment company to a non-diversified investment company. In October 2001, the Company’s stockholders approved proposals to change the nature of the Company’s business so as to cease to be an investment company and to amend the Company’s fundamental investment policies regarding concentration and investing directly in real estate. Subsequently, the Company’s management ceased all activities relating to investment securities and established operations in the real estate business and related services.

On October 5, 2005, the SEC issued an order declaring that the Company had ceased to be an investment company effective immediately. As a result, we are currently a publicly held company subject to the reporting and other requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and are no longer subject to regulation under the 1940 Act. The Company’s shares are currently listed on the American Stock Exchange.

We are engaged in the acquisition, development, management and sale of commercial and undeveloped land real estate properties located primarily in the Northeastern United States. We conduct real estate operations on properties we own through our wholly owned subsidiaries. Our primary goal going forward is to increase the intrinsic value of the Company over time through operations in real estate and related services. Currently we are in the process of adding to our portfolio of real estate properties and related services.

Our principal real estate holdings are currently in the Millbrook and Clinton Corners areas of northern Dutchess County, New York. Our most significant holdings are the 215.42 acre parcel of undeveloped land located in the Towns of Washington (Millbrook) and Clinton (Clinton Corners) and the 18,598 square foot commercial property in Mabbettville, New York now known as “Millbrook Commons” (formerly known as “Washington Lanes”). We also own an adjacent 1,006 square foot commercial property known as the Mabbettville Dairy Cream.

Our overall strategy is to enhance the value of our Dutchess County, NY properties by securing and maintaining development entitlements and developing and building real estate projects on these properties for rent, sale or investment, thereby increasing the potential return from our core assets. We continue to investigate and pursue opportunities for new projects that would require capital investment by us and offer the possibility of acceptable returns and limited risk. Our progress towards

accomplishing these goals includes the following: over the past year we have successfully permitted and initiated development of our Millbrook Commons project and successfully leased our Mabbettsville Dairy Cream property to a tenant with long experience in its type of business operations.

The Millbrook Commons project included a one and a half year special permitting and site plan approval process through the Town of Washington Planning Board whereby we successfully secured all permitting rights for the project during December 2005. We are in the process now of initiating building renovations as we conduct leasing operations of the retail/office/restaurant facility, which is the largest building of its kind in the 67 square mile area of the Town of Washington in northern Dutchess County, NY.

During November 2005, we commissioned a Master Site Plan and Evaluation Report from The Chazen Companies P.C. for our 215.42 acre Winmark Properties I LLC undeveloped land parcel in the growing areas of Millbrook and Clinton Corners, NY. This is the first step of the approval and development process for this property that we estimate may take up to two years to complete. There is no assurance that the undeveloped acreage will be developed because of the nature of the approval and development process and market demand for a particular use. Undeveloped acreage includes raw real estate that can be sold "as is" i.e. no infrastructure or development work has begun on such property. A developed lot is an individual tract of land that has been developed and permitted for residential use. A developed lot may be sold with a home or attached homes already built on it or not. Developed acreage or acreage under development includes real estate for which infrastructure work over the entire property has been completed, is currently being completed or is able to be completed and necessary permits have been received.

On October 5, 2005, we ceased to be an investment company regulated under the 1940 Act. Before that time we recorded our net assets at fair value (or market value). After that time, we changed our accounting method and began recording our assets and liabilities on a historical cost basis. We also began consolidating our accounts with the accounts of our wholly owned subsidiaries for financial reporting purposes. As an investment company Regulation S-X, rule 6-03(c)(1) precluded consolidation of any entity, in our case our wholly owned subsidiaries, other than another investment company. This transition resulted in a change in accounting principle, as described in Note 3 to the consolidated financial statements, included below as Item 1 of this Quarterly Report. For all other assets and liabilities fair value approximated cost at that time and no additional transition adjustment was required.

Critical Accounting Policies

Our significant accounting policies are described in Note 2 of the notes to the consolidated financial statements in Item 1. Not all of these significant accounting policies require management to make difficult, subjective or complex judgments or estimates. We believe that our most critical accounting policies relate to our valuation of long-lived assets, our allocation of costs, and our fair value accounting policy.

Investment in Real Estate and Commercial Leasing Assets. Real estate held for use is stated at the lower of cost or fair value less costs to sell, and includes acreage, development, construction and carrying costs, and other related costs through the development stage. Commercial leasing assets, which are held for use, are stated at cost. Capitalized costs are assigned to individual components of a project, as practicable, whereas interest and other common costs, if any, are allocated based on the relative fair value of individual land parcels. Certain carrying costs are capitalized on properties currently under active development.

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," when events or circumstances indicate that an asset's carrying amount may not be recoverable, an impairment test is performed. Events or circumstances that we consider indicators of impairment include significant decreases in market values, adverse changes in regulatory requirements (including environmental laws) and current period or projected operating cash flow losses from rental properties. Impairment tests for properties to be held and used, including rental properties, involve the use of estimated future net undiscounted cash flows expected to be generated from the use of the property and its eventual disposition. If projected undiscounted cash flow from properties to be held and used is less than the related carrying amount, then a reduction of the carrying amount of the long-lived asset to fair value is required. Measurement of the impairment loss is based on the fair value of the asset. Generally, we determine fair value using valuation techniques such as discounted expected future cash flows.

Our expected future cash flows are affected by many factors including the economic condition of the Dutchess County, New York market, the performance of the real estate industry in the markets where our properties are located, our financial condition, which may influence our ability to develop real estate, and governmental regulations.

Because any one of these factors could substantially affect our estimate of future cash flows, this is a critical accounting policy because these estimates could result in us either recording or not recording an impairment loss based on different assumptions. Impairment losses are generally substantial charges. We have not recorded any such impairment charges. Any impairment charge would more likely than not have a material effect on our results of operations.

The estimate of our future revenues is also important because it is the basis of our development plans and also a factor in our ability to obtain the financing necessary to complete our development plans. If our estimates of future cash flows from our properties differ from expectations, then our financial and liquidity position may be compromised, which could result in our suspending some or all of our development activities.

Allocation of Salary and Overhead Costs. We capitalize a portion of our salary and overhead costs and also expense a portion of these costs directly to operations based on the activities of our employees that are directly engaged in these activities. In order to allocate salary costs, we periodically evaluate our "corporate" personnel activities to see what, if any, time is associated with activities that would normally be capitalized or considered part of operations. After determining the appropriate aggregate allocation, we apply these factors to our salary costs to determine the appropriate allocations. Other overhead items are specifically identified at the time of purchase to determine whether the cost should be capitalized or expensed. Generally, overhead costs for our properties under development are capitalized. This is a critical accounting policy because it affects our net results of operations for that portion which is capitalized. In accordance with paragraph 7 of Statement of Financial Accounting Standard No. 67 "Accounting for Costs and Initial Rental Operations of Real Estate Projects" ("SFAS 67"), we only capitalize direct and indirect project costs associated with the acquisition, development and construction of a real estate project. Indirect costs include allocated costs associated with certain pooled resources (such as office supplies, telephone and postage) that are used to support our development projects, as well as general and administrative functions. Allocations of pooled resources are based only on those employees directly responsible for development. We charge to expense indirect costs that do not clearly relate to a real estate project such as salary and allocated expenses related to the Executive Chairman.

Fair Value Accounting. The Fair Value Accounting policy, applied to years 2004 and prior, when we were subject to the reporting requirements of the 1940 Act. The primary assets for which no market quotations existed in 2004 were the interests in real estate held by wholly owned subsidiaries TRE I and TRE2. In 2004, these assets comprised approximately 13% of our net assets. In management's

opinion, the other assets and other liabilities historical costs were deemed to approximate fair value. As a general principle, the current “fair value” of an asset would be the amount we might reasonably expect to receive for it upon its current sale, in an orderly manner. There is a range of values that are reasonable for such assets at any particular time. Generally, cost at purchase, which reflects an arm’s length transaction, was the primary factor used to determine fair value until significant developments affecting the holding (such as result of operations or changes in general market conditions) provided a basis for use of an appraisal valuation. In determining the “cost” of real estate properties, we rely on current accounting guidelines set forth in SFAS 67 and, as a general principle, costs clearly associated with the acquisition, development, and construction of a real estate project are capitalized as a cost of that project. Indirect project costs that relate to several projects are capitalized and allocated to the projects to which the costs relate. Such purchase cost and subsequent capitalized costs are, however, subject to fair valuation and impairment charges. Appraisal valuations are based upon such factors as book value, earnings, cash flow, the market prices for similar securities of comparable assets, an assessment of the asset’s current and future financial prospects, ownership agreements, and various other factors and assumptions, such as discount rates, valuation multiples, and future growth projections. Additional factors which might be considered include: financial standing of the issuer; the business and financial plan of the issuer and comparison of actual results with the plan; size of position held and the liquidity of the market; contractual restrictions on disposition; pending public offering with respect to the financial instrument; pending reorganization activity affecting the financial instrument (such as merger proposals, tender offers, debt restructurings, and conversions); ability of the issuer to obtain needed financing; changes in the economic conditions affecting the issuer; a recent purchase or sale of a security of the issuer. Appraisal valuations are necessarily subjective and management’s estimate of values may differ materially from amounts actually received upon the disposition of the holding. The Board of Directors reviewed valuation methodologies on a quarterly basis to determine their appropriateness.

Real Estate Acquisitions, Leasing, and Development Activities

In January 2004, we acquired through our wholly owned subsidiary TRE I the Washington Lanes real estate and improvements, fixtures, and equipment located in the Town of Washington, Dutchess County, New York (“TRE I Property”). The TRE I Property is a 1.7 acre property with an 18,598 square foot facility. In December 2005, we were granted all approvals and special permit by the Planning Board of the Town of Washington for our plan to re-develop the TRE I Property for use as a retail center, to be called Millbrook Commons.

In April 2004, TRE2 acquired the Dairy Deli in the Town of Washington, Dutchess County, New York real estate, improvements, fixtures, and equipment (“TRE2 Property”). The TRE2 Property includes real estate used for a year around ice cream stand, on a land area of .35 acres or 15,246 square feet, with a building area of 1,006 square feet, outbuildings, and fixtures and equipment used in the operation of the stand. We entered into a net five-year lease commencing on April 1, 2005, for an annual rental of \$45,000 payable in equal monthly installments (less a \$9,000 non-cash rebate in year 1) compounding annually an annual cost-of-living adjustment.

In March 2005, Winmark I acquired a total of 215.42 acres of vacant land comprised of 70.01 acres in the Town of Clinton and 145.41 acres in the Town of Washington in Dutchess County, New York (the “Winmark I Property”). We deem the Winmark I Property as suited for development with adequate road frontage, minimal wet areas and rolling topography and that the highest and best use for the Winmark I Property would be for subdivision into oversized residential parcels and development with mini-estates.

Results of Operations

Revenue. We earned rental income from the lease of our TRE2 Property of \$10,800 for the three months ended March 31, 2006 compared to \$0 for the three months ended March 31, 2005. The lease for the TRE2 property commenced in April 2005.

Expenses. Total expenses increased approximately \$78,000 for the three months ended March 31, 2006 compared to 2005. The increase in total expenses was primarily due to increases in compensation and benefits and general and administrative expenses.

Compensation and benefits increased approximately \$46,000 in for the three months ended March 31, 2006 compared to 2005. The increase was primarily due the our matching contribution to the Winco 401(k) plan of approximately \$14,000 and to allocated compensation and benefit expenses for jointly used administrative and support functions incurred by Winco and charged to the Affiliates of approximately \$26,000. For the three months ended March 31, 2005, we did not participate in the 401(k) plan. In 2005, before we received our de-registration order from the SEC, the cost of jointly used administrative and support functions was performed by Winco's subsidiary MMC under agreement for \$20,000 per annum.

General and administrative expenses increased approximately \$28,000 in the three months ended March 31, 2006 compared to 2005. The increase was primarily due to an increase in rent expense of jointly used office space and overhead expense for various jointly used administrative and support functions incurred by Winco and its subsidiaries which are allocated to the Affiliates. These costs increased approximately \$10,000 in the three months ended March 31, 2006 compared to 2005. Other increases to general and administrative expenses for the three months ended March 31, 2006 compared to 2005 were approximately \$10,000 consisting of printing, mailing, and proxy costs for shareholder communications and approximately \$6,000 in depreciation expense for the TRE2 property.

Non-operating income. Non-operating income increased approximately \$25,000 for the three months ended March 31, 2006 compared to 2005. Dividends earned from our money market fund investment increased approximately \$12,000 due to the rise in money market yields in 2006 from 2005. For the three months ended March 31, 2005, as we were still operating as a registered investment company we had an unrealized loss due to the cost of our property holdings exceeded its fair value by approximately \$12,000.

The net loss for the year three months ended March 31, 2006 was \$180,896 or a loss of \$0.18 per share on a diluted basis.

Liquidity and Capital Resources

Historically, we have had adequate liquidity to fund our operations.

In management's opinion, we should be able to generate adequate amounts of cash to meet our anticipated obligations. In the event temporary additional liquidity is required, we believe that a line of credit or other arrangement could be obtained by pledging some or all of our unencumbered assets as collateral.

Item 3. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its President and Chief Executive Officer and Principal Financial Officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures which, by their nature, can provide only reasonable assurance regarding management's control objectives. The Company has carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer along with the Company's Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b). Based on that evaluation, management, including the Company's President and Chief Executive Officer along with the Company's Principal Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2006.

Changes in Internal Controls

In connection with the evaluation of our internal controls during our last fiscal quarter, our principal executive officer and principal financial officer have determined that there have been no changes to our internal controls over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

None

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

None

Item 6. Exhibits

None

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

TUXIS CORPORATION

Dated: May 15, 2006

By : /s/Thomas O'Malley
Thomas O'Malley
Chief Financial Officer,
Chief Accounting Officer

Certification - Exchange Act Rules 13a-14 and 15d-14

I, Mark C. Winmill, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Tuxis Corporation ("small business issuer");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
4. The small business issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) [omitted in accordance with SEC Release Nos. 33-8238 and 34-47986];
 - c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The small business issuer's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
